PROFESSIONAL EXPERIENCE:

2011 – Speckin Forensic Laboratories LLC

8/11 – Present Atlantic Diagnostic Laboratory

Bensalem, PA,

Director of Forensic Toxicology

Plan, organize, direct all aspects of Forensic Toxicology Testing. Using pharmacological and biochemical principles to interpret analytical findings, generate written and oral reports for clinical and forensic purposes. Using pharmacological and biochemical principles to interpret analytical findings, generate written and oral reports for clinical and forensic purposes. Coordinate medico-legal issues with attorneys, courts of law and other professionals.

11/10 – 7/11 **DrugScan, Inc.**

Warminster, PA.

Forensic Toxicologist

Assign, perform and certify testing of specimens for compounds of toxicological interest, especially in relation to matters of law. Data analysis and certification of GC/MS and LC/MS data.

10/10 – Present Union County Medical Examiner's Office

Union County, NJ

Forensic Toxicology Consultant

Using pharmacological and biochemical principles to interpret analytical findings, generate oral reports, provide toxicology consulting to the medical examiner's office.

10/10 – Present Forensic Toxicology Consultants, LLC

Mount Laurel, NJ

Using pharmacological and biochemical principles to interpret analytical findings, generate written and oral reports for clinical and forensic purposes. Coordinate medico-legal issues with attorneys, courts of law and other professionals. Provide courtroom testimony upon request.

E.H. ALBANO INSTITUTE OF FORENSIC SCIENCE – Newark, New Jersey

Dr. GEORGE F. JACKSON, Ph. D.

11/03 -9/10 Laboratory Director

Plan, organize, direct all aspects of the State Toxicology Laboratory to include the Forensic Pathology Testing and Law Enforcement Drug Testing sections. Established, maintain quality assurance and quality control programs(CAP, CLIA, ABFT), implement policies and procedures for laboratory, coordinate Continue Education and Certification programs, Coordinate medico-legal issues as it relates to the State Toxicology, Laboratory, Perform positive & negative certification of analytical results, Use pharmacological and biochemical principles to interpret analytical findings, generate written and oral reports for clinical and forensic purposes. Testimony on matters of toxicology in Local, State, Federal and Military jurisdictions.

03/03 – 11/03 Deputy Director

Plan, organize, direct all aspects of the Law Enforcement Drug Testing section, Quality Control, Quality Assurance, Training and Reviews. Provide assistance to Director of Laboratory in the administration of the Forensic Pathology Testing Laboratory. Use pharmacological and biochemical principles to interpret analytical findings, generate written and oral reports for clinical and forensic purposes. Perform positive & negative certification of analytical results, Coordinate medico-legal issues as it relates to the State Toxicology Laboratory. Testimony on matters of toxicology in Local, State, Federal and Military jurisdictions.

NATIONAL MEDICAL SERVICES - Willow Grove, PA**07/95 B 2/03 Forensic Toxicologist**

Assign, perform and certify testing of specimens for compounds of toxicological interest, especially in relation to matters of law. Testimony on matters of toxicology in Local, State, Federal and Military jurisdictions.

05/01 B 2/03 Director of Expert Services

Oversee the administrative functions of the Expert Services Group at NMS. Coordinate medico-legal issues with attorneys, courts of law and others as they relate to NMS.

Direct and oversee all administrative aspects of the Security Department

03/96 B 07/99 Director of Forensic Operations

Direct and oversee all aspects of Controlled Substances procurement and Storage

07/95 B 03/96 Director of Environmental/Occupational Testing

Responsible for that portion of the laboratory involved in the testing of biological and some non-biological samples for environmental toxicants.

07/94 B 07/95 Postdoctoral Fellow Forensic Toxicology

Assign, perform and certify testing of specimens for analytes of toxicological interest, especially in relation to matters of law. Methods used include HPLC with various modes of detection; gas chromatography; gas chromatography/mass spectrometry; wet chemical, colorimetric, spectrophotometric and other chromatographic techniques. Use pharmacological and biochemical principles to interpret analytical findings, generate written and oral reports for clinical and forensic purposes.

SCIENTIFIC TESTING LABORATORIES – Richmond, VA

03/94 – 06/94 Certifying Scientist

Directed and controlled specialized Forensic Urine Testing involved in the legal analyses for drugs of abuse.

FIRM SPECIALTY TESTING LAB, MCV – Richmond, VA

08/89 – 09/91 Supervisor/Toxicologist

Dr. GEORGE F. JACKSON, Ph. D.

Planned, organized, directed and controlled specialized Forensic Laboratory involved in legal analyses, pesticide analyses, research and analyses for compounds not routinely performed in other toxicology laboratories.

CLINICAL TOXICOLOGY LAB, DEPT. OF PATHOLOGY, MCV -Richmond, VA

01/89 – 08/89 Laboratory Specialist

Analyzed biological specimens of a diverse nature, ranging from tissues taken at autopsy to therapeutic drugs and alcohols.

BUREAU OF FORENSIC SCIENCE, TOXICOLOGY LAB – Richmond, VA

04/88 – 01/89 Analytical Chemist

Analyzed biological specimens of a diverse nature for drugs and alcohols for medico-legal cases.

CLINICAL TOXICOLOGY LAB, DEPT. OF PATHOLOGY, MCV - Richmond, VA

08/82 – 03/88 Clinical Laboratory Specialist

Therapeutic drug monitoring of patient specimens, utilizing a variety of analytical techniques.

UNIFORMED SERVICES UNIVERSITY OF HEALTH SCIENCES, NNMC Bethesda, MD

01/81 – 11/81 Research Assistant, Department of Anatomy

Research involving neuropathway testing and various histological preparation of specimens.

SMITHKLINE and FRENCH, PSYCHOPHARMACOLOGY DEPARTMENT – Philadelphia, PA

06/77 – 08/77 Research Associate

Research involving behavioral effects of alcohol.
